Portfolio : [anagha-nisakar-portfolio](#)

I am a highly skilled **Front-End Developer** with a strong foundation in modern web technologies including **React.js, Next.js, Vue.js, Nuxt.js and Tailwind CSS**. My expertise lies in seamless design-to-code conversions, ensuring visually appealing and functional websites. I excel in transforming design mockups into responsive sites, placing a strong emphasis on **SEO-friendly** development for enhanced performance. I am dedicated to delivering high-quality digital experiences.

Skills

Languages : HTML, CSS, JavaScript

Technologies and Tools : **React.js, Next.js, Vue.js, Nuxt.js, Tailwind CSS, SCSS, Bootstrap, Figma**

Education

Bachelor of Technology In Computer Science

July 2017 - August 2021

MDIT Ulliyeri- M Dasan Institute of Technology
Kozhikode, Kerala

Work Experience

Freelance Frontend Developer

April 2025 – Present

Self-employed Frontend Developer focusing on scalable web applications

- Delivered **5+** complete front-end projects as a self-employed developer, specializing in high-performance web sites and applications using **React.js, Next.js, and Vue/ Nuxt.js**.
- Built modern, responsive UIs using **Tailwind CSS** and **shadcn/ui**, creating reusable, accessible components and translating **Figma** designs into pixel-perfect user interfaces.
- Implemented **SEO** best practices and optimized performance by improving **meta tags, semantic HTML, Open Graph (OG) tags, and page load speed**, increasing **Lighthouse scores**

IOCOD Infotech, Kozhikode

June 2022 - January 2025

Software Developer

- Served as a **core developer** across multiple projects, specializing in building modern, high-performance applications using **Vue 3 and Next.js**.
- Collaborated with **cross-functional teams** to develop and maintain multiple web applications, delivering new features and enhancements aligned with product and business goals.
- Contributed ideas in design and **development discussions** with the team to improve usability and ensure the user experience aligns with project goals.

- Built **reusable components** and **modules** for **scalable** and **maintainable** frontend architecture.
- Developed and launched entire **company websites** as the main developer, simultaneously implementing and managing all **SEO improvements (meta tags, semantic HTML, Open Graph, performance enhancements)** for improved **search rankings**.
- Gained experience in team-based **agile workflows**, using version control tools like **Git** to manage projects collaboratively.
- Leveraging a background as a **frontend design developer**, actively contributed to **UX/UI** discussions and ensured technical feasibility during the initial **Figma** design and **prototyping** phase.

Optimist Tech Hub, Kozhikode

September 2021 - January 2022

UI/UX Designer and Front-End Developer

- **Designed** responsive user interfaces for **web and mobile applications**, using **Figma** and **Adobe XD** for **wireframing** and **prototyping**.
- Converted design prototypes into functional, pixel-perfect UIs using **HTML**, **CSS**, **SCSS**, **Bootstrap**, and **JavaScript**.

Key Projects

Nomik Legal (React.js)

[Demo](#)

- Managed the frontend development of a legal consultation platform using **Next.js**, delivering a responsive website.
- Implemented **Web3**-based forms to facilitate secure client consultation requests and data handling.
- Enhanced **SEO** performance by integrating **meta tags**, **Open Graph (OG) tags**, **Google Analytics**, **robots.txt**, **sitemap**, and **optimizing page load times, titles, and descriptions**.

Eza (Vue.js)

[Demo](#)

- Designed and developed a website for **EZA Corporate**, a service provider in Dubai.
- Created and prototyped the entire project using **Figma**
- Built using **Nuxt 3**, **Tailwind CSS** and **Shadcn Nuxt** as a component library.
- Followed **SEO best practices** during the development phase to improve search engine ranking and enhance user experience.

Other Projects : [CI Tech](#), [Alam Engaz](#), [VFX Artist Portfolio](#)

Other web projects showcasing a variety of front-end skills
