Professional Experience

Frontend Developer Apr 2025 – Present
Freelance

- Delivered 5+ production-ready web applications using React.js, Next.js, and Vue/Nuxt
- Built reusable UI components with Tailwind CSS, improving development efficiency
- Transformed Figma designs into responsive, pixel-perfect interfaces
- Boosted Lighthouse performance scores from 65 to 95+ and reduced load time by up to 60%

Software Developer Jun 2022 – Jan 2025
IOCOD Infotech, Kozhikode

- Engineered high-performance web applications using Vue 3 and Nuxt.js
- Designed reusable and scalable frontend architecture for long-term maintainability
- Partnered with cross-functional teams to deliver business-critical features
- Led company website initiatives with SEO enhancements and performance optimization
- Utilized Git workflows within agile teams for efficient collaboration

Key Projects at IOCOD

Easify (Nuxt.js) — Marketing Platform / SaaS
easify.app

- Built responsive and high-performance UI using Nuxt.js and Tailwind CSS
- Integrated REST APIs to support dynamic workflows and real-time data handling
- Designed and implemented calendar-based scheduling features
- Enhanced SEO using semantic HTML, structured metadata, and optimization techniques

Merchant Marketplace (Vue/Nuxt) — E-commerce / Marketplace Platform
merchantmarketplace.com

- Developed scalable frontend components using Vue.js and Nuxt.js
- Designed secure authentication flows including login, session handling, and protected routes
- Integrated APIs for seamless user data and application functionality
- Delivered pixel-perfect UI aligned with Figma designs and responsive standards

UI/UX Designer & Frontend Developer Sep 2021 – Jan 2022
Optimist Tech Hub, Kozhikode

- Crafted responsive UI for web and mobile applications using Figma and Adobe XD
- Created wireframes and prototypes to define user journeys and structure
- Translated design concepts into functional UI using HTML, CSS, SCSS, Bootstrap, and JavaScript
- Maintained design consistency across devices and screen sizes

Projects

Nomik Legal (Next.js) nomiklegal.com

- Built responsive frontend for legal consultation platform
- Integrated Web3-based forms for secure data handling
- Applied SEO best practices including meta tags, sitemap, and Open Graph
- Optimized performance and page load speed

EZA Corporate (Nuxt 3) ezacorporate.com

- Developed full website using Nuxt 3 and Tailwind CSS
- Designed UI in Figma and implemented pixel-perfect frontend
- Used component-based architecture for scalability
- Improved SEO and user experience

Budgetify — Personal Finance Management Web Application (Work in Progress)

- Designing and developing a personal finance management web application using React, TypeScript, and Tailwind CSS
- Creating intuitive and responsive user interfaces for expense tracking, budget planning, and financial monitoring
- Building features for expense categorization, monthly budget management, and spending analysis
- Developing interactive dashboards to visualize spending patterns and financial insights
- Managing the complete UI/UX design and frontend implementation with a focus on usability and performance

Other Projects

- CI Tech – citech.my
- Al Amengaz – alamengaz.com
- Portfolio – adharshsanthosh.netlify.app
- Built reusable UI components and responsive layouts
- Ensured cross-browser compatibility and performance optimization
